

# COUNTRY WATCH

## Western Weekly:

18<sup>th</sup> October 2014

Colleagues,

This week we carried out a force wide operation to target hare coursing activities. Unfortunately, or perhaps fortunately, having put everything in place for the operation, PC Rain intervened and no activity was seen. We will continue to conduct this type of operation over the coming months to target different types of rural crime.

The Country Watch team will be undergoing some structural changes over the coming six months or so which will see me taking responsibility for Country Watch officers over the whole County. Whilst this may sound like taking on a lot of extra work, in fact it will result in the whole team working more closely together and provide the opportunity to bring the team together to run operations as we have done this week. More on this as plans are published.

Kind Regards

Debby Holman  
Western Country Watch Sergeant
