Western Weekly:

5th June 2014

Colleagues,

This week the team conducted a multi-agency road check on Light Goods Vehicles in conjunction with our HM Revenue and Customs and Driver and Vehicle Services Agency colleagues. This was a successful operation despite having wet weather and several vehicles were prohibited from continuing their journey due to serious defects. One vehicle was found to be running on red diesel and the driver dealt with by Revenue and Customs. There were also a number of minor traffic offences detected and information obtained which may help in the prevention and detection of crime in the future so all round a successful operation and a good opportunity for joint working with partner agencies.

The crime trend for the theft of power tools continues in the same vein with power tools, particularly petrol driven hedge trimmers, strimmers and leaf blowers.

This time of year the birds are busy nesting and rearing their young. Please remember it is an offence to disturb these nests and also keep a close watch on your dogs whilst walking in the forest as they can easily run over ground nesting birds and disturb them causing them to abandon their young.

Another reminder about leaving valuables in your car. We always see an increase in thefts from vehicles in beauty spot car parks at this time of year. Please don't leave valuables in the car when you go walking. Ladies, please don't 'hide' your handbag in the boot. The thieves may be watching you and waiting to see where you put your bag when leaving the car.

11 chickens, a number of different breeds, were located on Sunday 1st June on Braggers Lane, Bransgore. They have all been rounded up and are now being looked after locally. If you have any knowledge please make contact with Country Watch.

Kind Regards

Debby Holman Western Country Watch Sergeant

Rural Theft
